

Second Scientific Meeting
Wednesday November 12th 2014 at HUG,
« Update on Cell Therapies Strategies at the different
Swiss Centers: Focus on Regulatory Aspects »

Session 1 - Chairmen: Léo BUHLER (Geneva), Eliane MUELLER (Bern)

Schedule	Speakers	Title of the presentation
09:00 - 09:30	COFFEE BREAK	REGISTRATION
09:30 - 09:45	Thérèse MEYER-KAELIN	Welcome of SICT President
09:45 - 10:00	Philippe MOREL	Welcome of the CURT Surgical Director
10:00 - 10:30	Giulio COSSU Manchester/UK	Cell therapy for muscular dystrophy: lessons learned and the road to efficacy.
10:30 - 10:45	Karin HOOGENDOORN Basel	The regulatory landscape for cell based medicinal products in Europe.
10:45 - 11:00	Thierry BERNEY Genève	Novel sites for the transplantation of islets of Langerhans in type 1 diabetes.
11:00 - 11:15	Pietro DI SUMMA Lausanne	From the clinics to the lab. Adipose-derived stem cells: new perspectives to enhance nerve regeneration.
11:15 - 11:30	Nicolas MACH Genève	Anti-tumor immunotherapy with genetically engineered. Encapsulated Cell Technology: from animal models to First in Human Phase 1 clinical trial.
11:30 - 11:45	Léo BUHLER Genève	Clinical protocols for cell xenotransplantation.
11:45 - 12:00	Henk SCHUURMAN Utrecht (NL)	Xeno cell therapy products, the international regulator perspective.
12:00 - 12:45	Claude AMMANN Thierry BERNEY Jean-François BRUNET Michele De LUCA Karin HOOGENDOORN Henk SCHUURMAN	Round table on Regulatory Aspects Chairman : Wassim RAFFOUL
12:45 - 14:15	LUNCH BREAK	

Session 2 - Chairmen: Maria JACONI (Geneva), Wassim RAFFOUL (Lausanne)

Schedule	Speakers	Title of presentation
14:15 - 14:30	Bertrand LEVRAT General Director of HUG	Welcome speech
14:30 - 15:00	Michele De Luca Italia	Epithelial stem cells in cell and gene therapy.
15:00 - 15:15	Ivan MARTIN Basel	From nose to knee, from fat to bone.
15:15 - 15:30	Marta ROCCIO Bern	Cell cycle reactivation of dormant inner ear stem/progenitor cells.
15:30 - 16:00	COFFEE BREAK	COFFEE BREAK
16:00 - 16:15	Marina RADRIZZANI Lugano	Cell therapy for cardiovascular disease: towards a fully compliant ATMP.
16:15 - 16:30	Vannary TIENG CAULET Genève	Challenges in translational cell therapy: from knee to the brain.
16:30 - 16:45	Nathalie ROSENBLATT-VELIN Lausanne	Cardiac Precursor Cell Therapy : reality or utopy ?.
16:45 - 17:00	Anthony GROGNOUZ Lausanne	Human progenitor tenocytes as a perspective for tendon treatment.
17:00 - 17:30	Marisa JACONI, Léo BUHLER, Wassim RAFFOUL (SICT members)	CONCLUSION
